The new IP5 website: an update
Aim of 2014 website restructuring

- Restructured IP5 website launched on 5 June 2014

- Increase transparency and involve stakeholders by:
  - making presentations and meeting material from GDTF and IP5 Industry meetings available
  - offering a section with IP5 news and an RSS feed
  - providing a contact e-mail address

- Render IP5 public website more user-friendly by:
  - focusing on projects relevant for users (e.g. Global Dossier, IP5 PPH, etc.)
  - providing useful background material (e.g. CAF, IP5 Authority Files, patent system overview table)
Transparency and stakeholder involvement

Ongoing improvements

- Ongoing improvements to make IP5 public website a useful resource for the user community
  - Adding new content
  - Monitoring website usage
  - Collecting feedback from users
New content since June 2014

June 2014  Presentations from IP5 Heads and IP5 Industry meeting in Busan

December 2014  IP5 events calendar updated

January 2015  IP5 patent system overview table updated

February 2015  Presentations from 2nd Global Dossier Task Force meeting in Suzhou

May 2015  2014 key IP5 statistical data
Website usage

- Statistics pages are the most popular
- News and RSS feed used frequently
- Global Dossier page consistently among the top 10
- Newly added content (e.g. patent system overview table) gets viewed frequently

Noticeable peak in usage following publication of 2013 IP5 Statistics Report
Collecting feedback

- What would IP5 Industry like to see improved on the IP5 website?
- What further content would be useful for the public?

➤ Any suggestions welcome!
