JIPA’s Activities towards Patent System Harmonization
JIPA Activities toward Patent System Harmonization (1)

History

<Phase I 1983-2003>
- 1983: Trilateral Conference of the Commissioner of JPO (Japan Patent Office), the President of EPO (European Patent Office), and the Director of USPTO (United States Patent and Trademark Office) in Washington, DC
- 1998: WIPO: the first meeting of SCP* (substantive)
  → JIPA: Response by the International Affairs Committee and the Patent Committee

<Phase II 2003-2012>  *Congressional passage of the revised America Invents Act (AIA) in 2011
- Meetings between the Trilateral Offices and users in the three regions (2004 -)
- 2005: B+ meeting (WIPO group of developed countries and others)
- 2011: The first Tegernsee Meeting (substantively / Japan, US and Europe + UK, Germany, France and Denmark)
  → JIPA: Start of the Trilateral Users / Patent System Harmonization Promotion Project by having a board member exclusively in charge of system harmonization and adding the Information System Committee and the Information Search Committee to the above-mentioned committees

<Phase III 2012->
- 2012: Trilateral users and Chinese and Korean users participated in an IP5 meeting → shift to the five-office system
- 2014: Final adoption of a report on substantive issues at the fifth Tegernsee Meeting
  (Main issues: grace period (1), 18-month full publication (2), handling of conflicting applications (3) and right of prior use(4))
  → JIPA: Start of an international policy project
