First Feedback on the RSS-feed Alerting function
First Feedback on Alerting function

✔ Alerting function via RSS feed looks good
✔ Being alerted via browser/favorite or email are options users would like
✔ Option to choose the type of
Questions from user side

- We understand that every office of the IP5 come with its own RSS-feed alerting service. Why need all offices to develop their own RSS feed alerting service in place of developing 1 common RSS alerting service?

- Is WIPO involved in the RSS feed alerting system with WIPO Case?
Thank you very much
