# *Three implemented achievements of GD Passive Components*

**Meeting of IP5 Heads of Offices and IP5 Industries**

**1 June 2016**

**JAPAN PATENT OFFICE**

## Basic Concept of GD

“The Global Dossier’ is a virtual environment to give all stakeholders secure, one-stop access and management to dossier and/or examination information of all family applications of corresponding Offices, by establishing a common service interface to each IP Office’s electronic dossier system”.

(“The Global Dossier Concept”, Joint Proposal by JPO and USPTO in 2012)

## Global Dossier Task Force (GDTF)

- At the 5th IP5 Heads Meeting in Jun. 2012, the IP5 Heads agreed to establish the GDTF with IP5 Offices, IP5 Industries and WIPO as members in order to discuss a future plan for the Global Dossier with users.
- At the 1<sup>st</sup> GDTF meeting in Jan. 2013, IP5 industries defined their vision of the GD which contains “passive” and “active” components.

## *Three Achievements of Global Dossier Passive Components*

---

OPD for IP5 Examiners in 2013

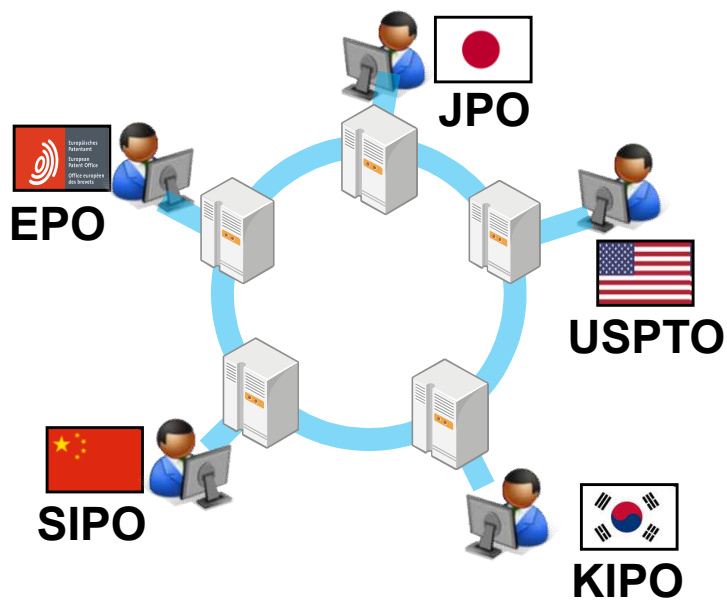

Linkage of OPD and WIPO-CASE in 2016

Public Access to GD in 2016

# One Portal Dossier (OPD)

- Examiners of IP5 Offices can obtain dossier information of all IP5 Offices in **one-stop access**.
- The initial concept of OPD was proposed by JPO in 2008. It **started in July 2013 for IP5 examiners**.
- The latest dossier information is retrievable through a decentralized database architecture.
- Value-added information such as classification & citation information is also provided.

## JPO's OPD User Interface for Examiners

## Through OPD...

- JPO's examiners accessed over **310,000** dossier documents of other IP5 Offices in 2015
- Other four Offices' examiners accessed over **440,000** dossier documents of JPO in 2015

*OPD is now contributing to work-sharing...*

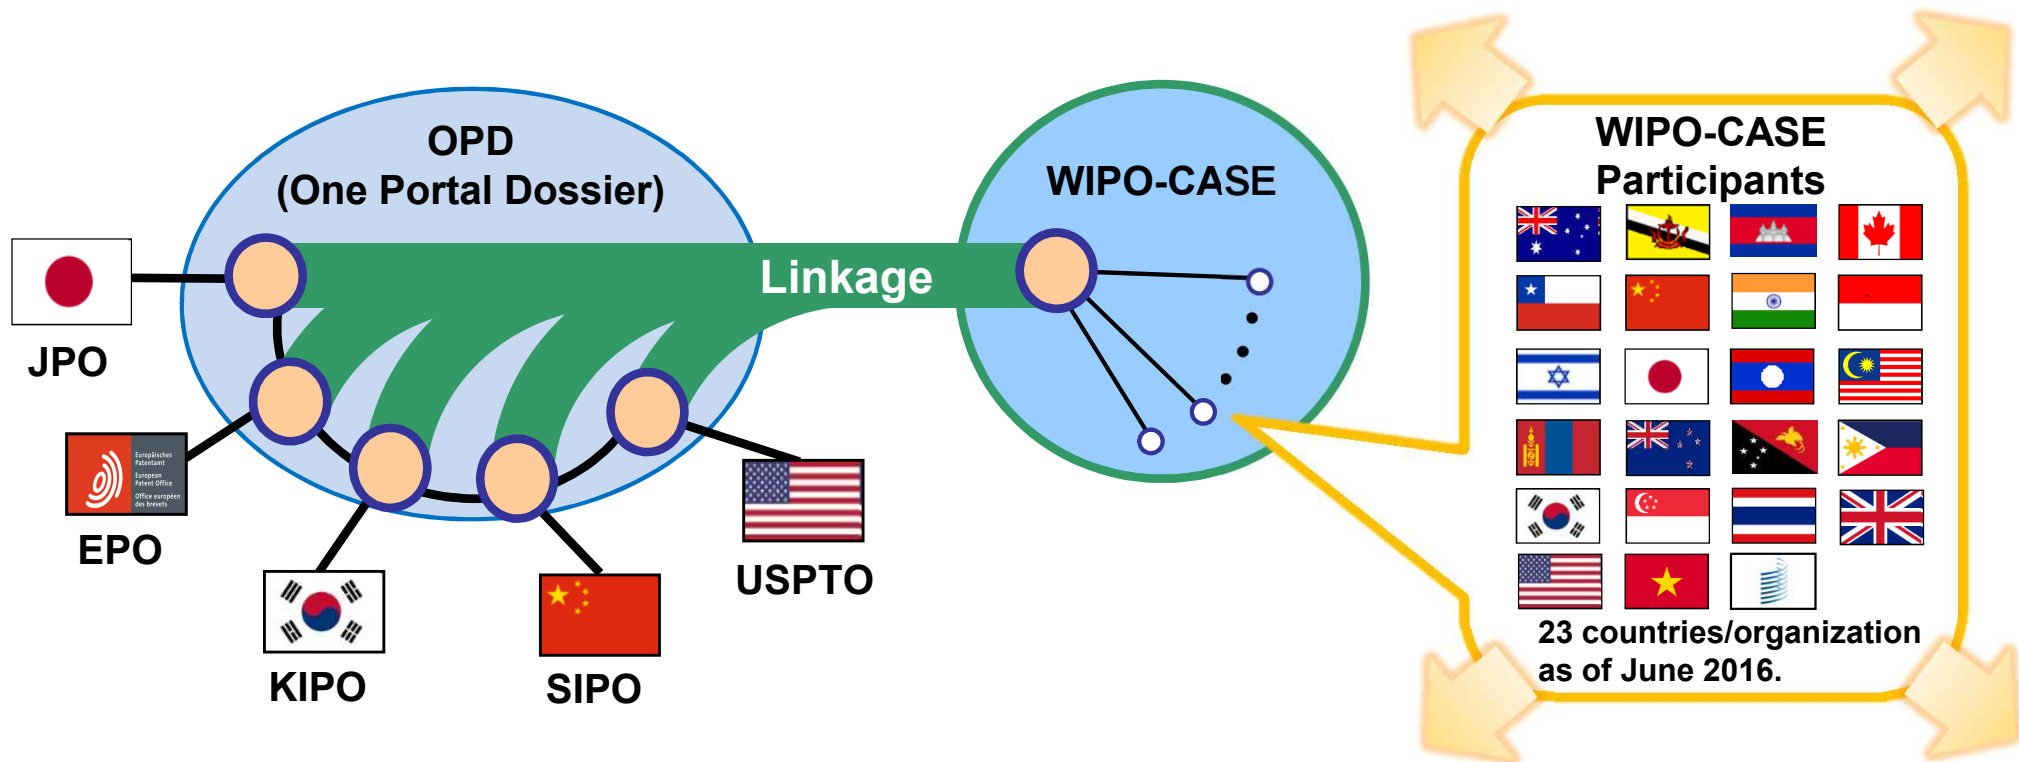

- *Eliminates unnecessary duplication of work*
- *Enhances examination efficiency and quality*

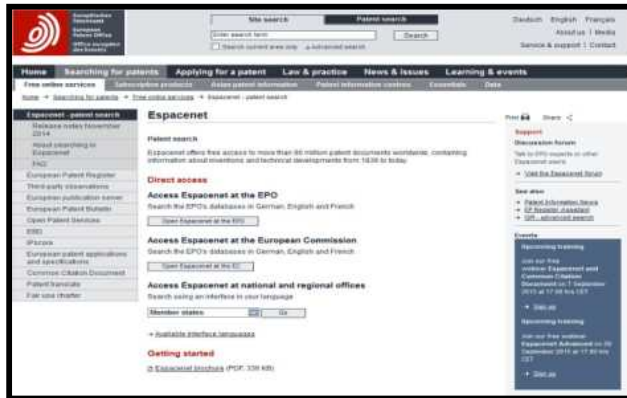

*Enables applicants to **obtain**  
**patents smoothly worldwide***

# Linkage of OPD and WIPO-CASE

- WIPO-CASE is a dossier information sharing system developed by WIPO, and JPO and WIPO worked jointly to develop linkage technique in 2014.
- **All IP5 Offices link the OPD to WIPO-CASE in 2016.**
- The linkage enables IP5 Offices to share dossier information with countries participating in WIPO-CASE (23 countries/organization as of Jun. 2016, and more participants anticipated).
- The linkage has the potential to achieve global work-sharing beyond the IP5.

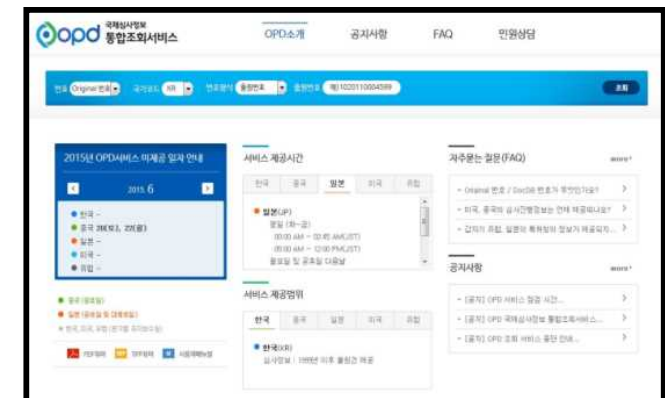

## All IP5 Offices enable the public to access GD in 2016.

Espacenet

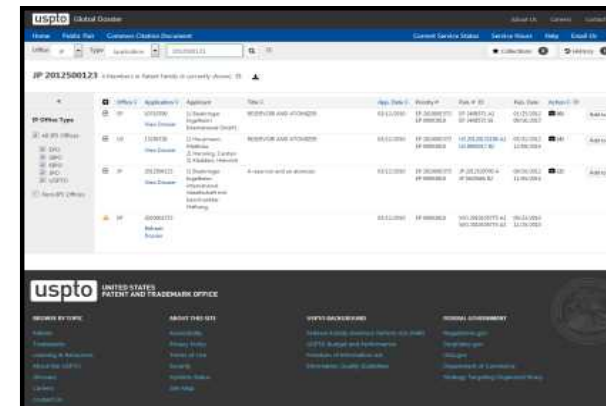

J-PlatPat

KIPO OPD

China and Global Patent Examination Information Inquiry

Global Dossier

- Users can access useful information to set their global IP strategies through one-stop access.
  - Check the status and results of examinations in the Offices
  - Check amendments submitted to the Offices
  - Obtain list of citation documents of the Offices

*Reduces workload on applicants in terms of managing and monitoring global applications.*

- IP5 Offices achieve three objectives this year for GD Passive Components;
  - OPD for IP5 Examiners
  - Linkage of OPD and WIPO-CASE
  - Public Access to GD
  
- IP5 Offices and Industries are working to achieve five short-term priorities;
  - Alerting
  - XML Based documents
  - Applicants Name Standardization
  - Legal Status
  - Active Component – Inter-Office Document Sharing

*Thank you very much*

감사합니다
